Backend: Node.js | Express.js | REST APIs | JWT Authentication

Programming Languages: Python | Java | C++ | JavaScript | TypeScript

Database: MySQL | MongoDB | Database Design | CRUD Operations

Tools & Platforms: Git | GitHub | VS Code | Figma | Postman | Android Studio (Basic)

WORK EXPERIENCE

Process Executive | Infosearch BPO Services – Chennai
November 2024 – January 2026

- Worked in data processing and quality validation workflows
- Strengthened attention to detail, problem solving, and process discipline
- Developed analytical thinking applicable to software development tasks
- Maintained high accuracy while handling large volumes of data under strict deadlines
- Identified and resolved inconsistencies to improve overall data quality
- Followed structured workflows and standard operating procedures efficiently
- Collaborated with team members to ensure timely task completion

PROJECT

DreamRender – AI Image Generation SaaS Platform | Live Demo | GitHub

- Developed a full-stack AI-powered SaaS application for generating images from text prompts.
- Implemented secure user authentication and authorization using JWT.
- Designed a credit-based system to manage API usage efficiently.
- Built a personalized gallery with search, filter, and download functionality.
- Integrated Cloudinary for scalable image storage and management.
- Implemented Stripe (test mode) for payment and credit purchase simulation.
- Developed responsive UI with smooth animations for enhanced user experience.

HINATA – AI Voice Assistant | GitHub

- Built a voice-enabled web assistant supporting text and speech interaction.
- Implemented frontend using HTML, CSS, and JavaScript.
- Developed backend logic using Python for command handling and automation.
- Integrated speech recognition and text-to-speech features.
- Designed responsive UI and optimized performance for usability.

INTERNSHIP EXPERIENCE

UI/UX Intern | Rankraze Technologies – Chennai

Dec 2023 – Jan 2024

- Assisted in designing and testing user interfaces for web applications.
- Collaborated with team members to improve usability and visual consistency.
- Gained exposure to frontend technologies and project workflows.

Technical Support Intern | EDII – Chennai

Feb 2024 – Mar 2024

- Provided technical support for software and basic hardware-related issues.
- Assisted users in troubleshooting and resolving system problems.
- Supported system maintenance activities and documentation tasks.

CERTIFICATIONS

- Java Fundamentals & Essentials – ICT Academy
- Python Fundamentals & Essentials – ICT Academy
- Microsoft Office Package – Naan Mudhalvan (University of Madras)
- Step into Robotic Process Automation v4.0 – ICT Academy
- Introduction to AI, NLP, Deep Learning, Computer Vision – Infosys Springboard

ACHIEVEMENTS & ACTIVITIES

- Awarded 100% Attendance at Avichi College of Arts and Science
- 1st Place – Debate Competition (Inter-department)
- NSS Volunteer and college event volunteer
- Participated in AI, ML, and Cybersecurity workshops and seminars
